WINES WITH PERSONALITY

2007 Pouilly-Fumé and Sancerre Vintage Report

A difficult vintage and a mixed growing season which presented mildew problems for growers who had not managed their vineyards well. Fortunately those who did benefited from a warm September that enabled the grapes to ripen fully, producing stunning Sauvignon Blancs, particularly where growers restricted their yields and made a careful selection of grapes. Sancerre's are a little leaner than Pouilly-Fumés due to a little more rain falling in the Sancerre region.
